MY VESSEL COMFORMS TO THE NORTH AMERICAN CORSAIR \_\_\_\_\_ CLASS RULES AS THEY APPEAR ON THE 2012 US CORSAIR NATIONALS WEBSITE

- YES  
 NO- IF NO, PLEASE FILL OUT 2012 US CORSAIR NATIONALS SAIL AND HULL PLAN DECLARATION FORMS

The 2012 US Corsair Nationals Rating Committee will assign all ratings and determine class assignment.

For purposes of this regatta, all Class rules may be adjusted to include reasonable and customary variations approved by the rating committee. A partial, but not all inclusive list of such variations can be found on the Sail Plan and Hull Declaration Forms. Please be sure to list all variations from the stock Corsair factory specifications. Any modifications from the factory specifications not listed may result in disqualification.

Do not treat the measurements that you supply for your hull, rig or sails lightly. There are usually some slight differences in actual measurement from designed or allowed measurements that do not result in penalties or credits and in fact reflect the hull, rig and sail plan of the boat as shipped and equipped from the manufacturer. If you are unsure about measuring and reporting critical hull, rig and sail dimensions, please see your sail maker or contact the 2012 US Corsair Nationals Rating Committee.

By my dated signature, I certify that the information on all application is correct and complete. I will notify the US Corsair Nationals Rating Committee in writing of any change or modification to the boat since the date of this application and prior to the 2012 US Corsair Nationals.

Signature of Owner \_\_\_\_\_ Dated: \_\_\_\_\_
